# 40 Single Sided Fabric Light Box

PROFILE

Wall Mounting Type

Currently, the minimum thickness of frameless fabric light box is 40mm, the light source is diffuse reflection. The diffuse reflection light sources lead to even lighting, which will be no any highlights or shadows, the distance between led stripes is 10cm. By using super slim power supply to guarantee that will be hidden inside the light box. Moreover, the aluminum profile thickness is 2mm, which ensure that no deformation will happen for big size light box, now the maximum light box we can do is 5m\*5m for engineering case.

Item No.	Profile Size(mm)	Frame Size(cm)	Graphics Size(cm)	N.W.(kg)	Package Size(cm)

# 60 Single Sided Fabric Light Box

**PROFILE** Wall Mounting Type

The 60mm thickness aluminum profile is the most common one in the market. It not only can be made into mosaic style, but also can be tri-dimensional style. The most important feature is lightweight and durable. The distance between led stripes is 6.5cm and we can use super slim power supply for it.

## Diffuse Reflection Light Source

Item	Profile Size(mm)	Frame Size(cm)	Graphics Size(cm)	N.W.(kg)	Package Size(cm)
3D-HS6060160	60*1.8	60*160	62*162	9.5	165*10*10
3D-HS6080180	60*1.8	80*180	82*182	10.5	185*10*10
3D-S60100200	60*1.8	100*200	102*202	11.6	205*10*10

## APPLICATIONS

- The mall
- Airport
- Museums
- The exhibition

WELL-ADAPTED

# 80 Single Sided Fabric Light Box

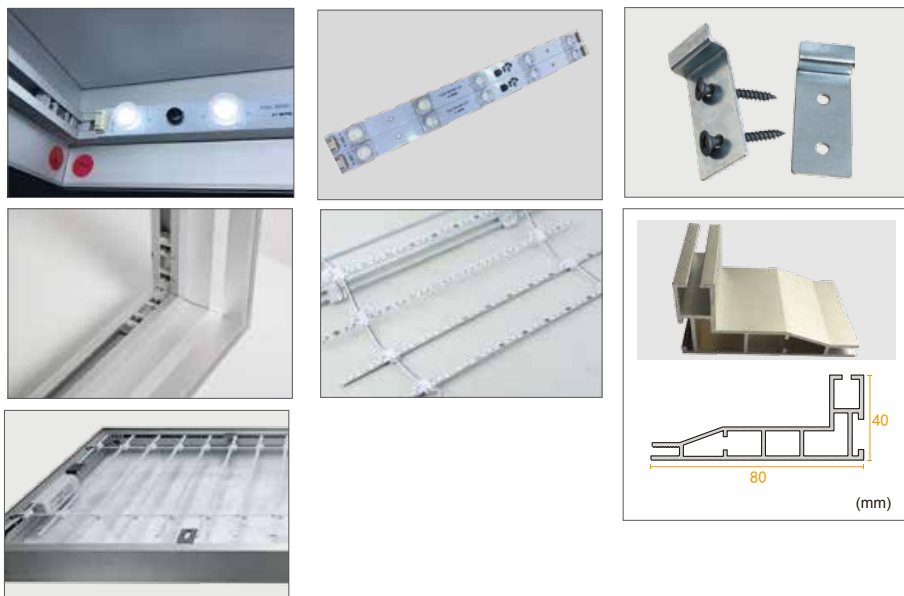

**PROFILE** Wall Mounting Type

With 80mm thickness aluminum profile, the frameless fabric light box shows stereoscopic impression and brings the best effect. It is really suitable for shopping malls, hotels and any other indoor places. The distance between led stripes is 6.5cm. The high power supply is used to make light box as big as it can be. Currently, the maximum length of one piece 8cm thickness aluminum profile is 5.8m, and can be spliced for better transportation and it can be seamless stitched.

# 100 Single Sided Fabric Light Box

PROFILE

Wall Mounting Type

The applications of 100mm thickness aluminum profile are wider and its main advantage is that it can be used to make oversized light box. The design of 100 aluminum profile is reasonable which has strong reinforcement, It is more suitable for outdoor light boxes. There will be no size limits for the light box by using Profile 100. You can custom your light box as big as you want.

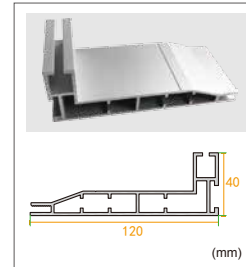

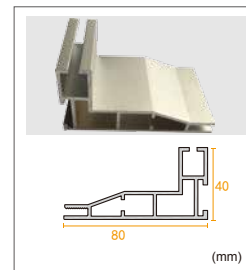

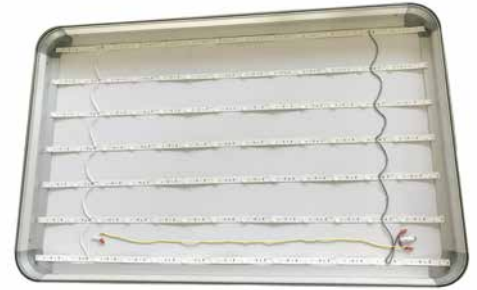

Item	Profile Size(mm)	Frame Size(cm)	Graphics Size(cm)	N.W.(kg)	Package Size(cm)

# 80 Double Sided Fabric Light Box

## PROFILE

Double Sides Frameless Fabric Light Box is a new type advertising light box. The main feature is that it can be used for both indoor and outdoor advertising with no size limits, and shows full screen graphic. Moreover, the graphics with the lights on are more brilliant than the one of traditional super slim light box. It could be free standing or hanging, and is widely applied to shopping mall's signboards or hanging guide signs. The advantage is its lightweight for hanging and terrific light transmission with edge-lit light sources.
